Review of Operations

The Group recorded a net profit after tax of \$4.2 million for the December half year, down 24.8% compared with the results for the six months to December 2016.

The half year saw the \$119.8 million acquisition of the Cassons motorcycle accessories business completed in October 2017, as well as four more motorcycle dealerships compared to December 2016.

Costs involved in acquiring the new businesses totalled \$1.6 million before tax. These costs are included in other expenses in the consolidated interim statement of profit or loss and other comprehensive income.

Overall Group revenue for the half-year increased 16.1% to \$140.1 million.

Motorcycle sales increased to a record of 8,867 units for the six months to December, which was up 3.6% from 8,561 units in the December half of 2016, and 14.1% higher than the 7,749 units sold in the immediately preceding six months to June 2017.

Growth was flat in new motorcycles, where sales totalled 4,944 units, almost identical to December 2016.

Used motorcycle sales grew by 8.4% to 3,923 units.

Most Revenue streams of the Group increased, with revenue in Parts and Accessories increasing 75.3%, and Service revenue up 9.3%.

Finance and Insurance revenue was 10.4% lower, due to industry changes to insurance commissions.

3. Use of Judgements and Estimates

In preparing these interim financial statements, Management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by Management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 June 2017.

In addition, for the acquisition of subsidiary as disclosed in note 15, the fair value of the assets acquired and liabilities assumed were measured on a provisional basis.

The terms of these leases were negotiated on commercial arms' length basis in 2016 and contain customary terms and conditions including an initial lease term of 5 years, with options to renew for a further 15 years (comprising 3 options for 5-year periods). 18. New Standards and Interpretations not yet Adopted

The following standards, issued but not mandatory for the interim reporting period ended 31 December 2017, have not been adopted by the Company in preparing these consolidated interim financial statements.

AASB 15 Revenue from Contracts with Customers

AASB 15 establishes a comprehensive framework for determining whether, how much, and when revenue is recognised. It replaces AASB 118 *Revenue* and related interpretation. AASB 15 is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted. The Group is continuing to assess the potential impact of AASB 15 on its systems, processes, consolidated financial statements, and reported results in accordance with an implementation plan.

AASB 9 Financial Instruments

AASB 9, published in July 2014, replaces the existing guidance in AASB 139 Financial Instruments: Recognition and Measurement. AASB 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. As previously reported, the actual impact of adopting AASB 9 on the Group's consolidated financial statements in 2018 cannot be reliably estimated because it will be dependent on the financial instruments that the Group holds and economic conditions at that time, as well as accounting elections and judgments that it will make in the future. Any likely material impacts will be reported in our full year FY18 financial statements.

AASB 16 Leases

AASB 16 removes the lease classification test for lessees as either operating leases or finance leases as is required by AASB 17 and instead, introduces a single lessee accounting model, involving capitalisation of leased assets and on balance sheet recognition of total liabilities. The Group's operating leases with terms of more than 12 months relate to leases of property including dealership premises, retail outlets, and warehouse facilities. The Group has not completed its assessment of the potential impact on its consolidated financial statements resulting from the application of AASB 16.
